DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The above well was converted from Producing Well to gas injection well in March, 1959. A total of 282,544 MCF of gas has been injected. We propose to install pumping equipment and convert to producing well.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
