(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measures and true vertical depths for all markers and zones pertinent to this work.)*

Two wells within the West Bisti Unit (Nos. 119, 129) have been returned to production with satisfactory results. Operator desires to produce this well to verify previous test results. All wells in this unit are now shut-in because of low oil prices. After the casing integrity test, it will be returned to production when economically justifiable.
