DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Well has been drilled to total depth of 1740' with no shows of oil or gas from samples. It is proposed to plug well according to specifications and abandon location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
