Re: Plugging Programs for P. L. Davis #1, A-26-26N-11W✓
and P. L. Davis #2, L-26-26N-11W

Dear Mr. Rovenko:

The plugging program for the P. L. Davis #1 is as follows:

PB to 5970
5700 to 5100
2500 to 2400 Perforate & Squeeze (perforate at bottom of plug)
1750 to 1600 Perforate & Squeeze (perforate at bottom of plug)
1150 to 1050 Perforate & Squeeze (perforate at bottom of plug)
750 to 650 Perforate & Squeeze (perforate at bottom of plug)
320 to 220
10 sks at top with dry hole marker

The plugging program for the P. L. Davis #2 is as follows:

PB to 5580
5100 to 5000
2450 to 2300 Perforate & Squeeze (perforate at bottom of plug)
1650 to 1480 Perforate & Squeeze (perforate at bottom of plug)
750 to 650 Perforate & Squeeze (perforate at bottom of plug)
370 to 270 Perforate & Squeeze (perforate at bottom of plug)
10 sks at top with dry hole marker

If I can be of any further service, please contact this office.

Yours truly,

Jeff A. Edmister
Geologist/Field Representative
