SUNDRY NOTICES AND REPORTS ON WELLS

NOTICE OF INTENTION TO DRILL		SUBSEQUENT REPORT OF WATER SHUT-OFF	<u>Production</u>	<u>I</u>
NOTICE OF INTENTION TO CHANGE PLAN		SUBSEQUENT REPORT OF SHOOTING OR ACIDIZING		
NOTICE OF INTENTION TO TEST WATER SHUT-OFF		SUBSEQUENT REPORT OF ALTERING CASING		
NOTICE OF INTENTION TO RE-DRILL OR REPAIR WELL		SUBSEQUENT REPORT OF RE-DRILLING OR REPAIR		
NOTICE OF INTENTION TO SHOOT OR ACIDIZE		SUBSEQUENT REPORT OF ABANDONMENT		
NOTICE OF INTENTION TO PULL OR ALTER CASING		SUPPLEMENTARY WELL HISTORY		
NOTICE OF INTENTION TO ABANDON WELL		<u>Report of Perforations</u>		<u>I</u>
		<u>Report of Sand-Oil Freeing</u>		<u>I</u>

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

A. L. Duff
Well No. 2 is located 1980 ft. from [N] line and 660 ft. from [E] line of sec. 19
SE 1/4-NE 1/4 Section 19
(1/4 Sec. and Sec. No.) 26N 13W N.M.P.M.
(Twp.) (Range) (Meridian)
Blair (Gallup)
(Field) San Juan New Mexico
(County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6550 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Set $5\frac{1}{2}$ " casing at 512', cemented with 200 sha. reg. cement.

Run Temperature Survey to 5360', found top of cement behind $5\frac{1}{2}$ " CB casing at 4503'.

Perforated $5\frac{1}{2}$ " casing 5373-74' with 4 Lane Wells jet shots to test cement job. Cement job tested O. K. Perforated $5\frac{1}{2}$ " casing 5357-73' with 4 Lane Wells jet shots per ft. Total perforations 17', 66 jet shots.

Freeed Gallup formation down $5\frac{1}{2}$ " casing, thru $5\frac{1}{2}$ " casing perforations 5357-74' with 40,000# 20-40 sand by Halliburton & 40,740 gals. oil. BOP 2600#, broke to 1700#. Max. TP 2600#, Min. TP 2400#. Time of treatment 30 min. Inj. rate 43.4 BPM. Shut down pressure 1200#.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company SKELLY
Box 426
Address Farmington, New Mexico

Title District Superintendent

PLANNING FOR A NEW FUTURE

The first step in planning for a new future is to identify the current situation. This involves a thorough analysis of the existing resources, capabilities, and challenges. Once the current state is understood, the next step is to define the desired future state. This vision should be clear, concise, and achievable. The third step is to develop a strategic plan that outlines the steps and actions required to move from the current state to the desired future state. This plan should be flexible and adaptable to changing circumstances.

It is important to involve all stakeholders in the planning process. This ensures that everyone has a voice and that the plan reflects the needs and interests of the entire organization. Regular communication and collaboration are essential for the success of the plan. The plan should be reviewed and updated regularly to ensure it remains relevant and effective.

Once the plan is developed, it is time to implement it. This involves putting the plan into action and monitoring progress. It is important to track key performance indicators (KPIs) to measure the success of the plan. If the plan is not working, it should be adjusted. Flexibility is key to successful implementation. The plan should be a living document that evolves over time.

Finally, it is important to celebrate success and learn from failure. Recognizing achievements motivates the team and reinforces the value of the plan. Learning from setbacks is equally important. It allows the organization to identify areas for improvement and make necessary adjustments. The planning process is an ongoing cycle that should be repeated as needed to ensure the organization remains on track for a bright future.

In conclusion, planning for a new future is a complex but essential task. It requires a clear vision, a strategic plan, and the involvement of all stakeholders. By following these steps, an organization can successfully navigate change and achieve its long-term goals. The future is within our grasp if we plan wisely and act decisively.
