Gentlemen:

Reference: Dual Completion Application for Tennessee Gas Transmission Company's USA W. O. Berger No. 2, Section 23, T26N, R11W, San Juan County, New Mexico, Undesignated field.

Attached is a New Mexico Oil Conservation Commission Application For Dual Completion on the subject well. We plan to submit this application to the New Mexico Oil Conservation Commission on December 20, 1958.

We propose to dually complete the well as a gas-gas dual completion from the Gallup and Dakota Formations.

If you have no objection to the proposed dual completion, we request that you signify your approval by signing and returning two copies of this waiver letter.

Very truly yours,

R. N. Walker

* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
