Gentlemen:

Re: Re-initiation of Gas Injection Test at  
Navajo Tribal "U" No. 3, Tocito Dome Field  
San Juan County, New Mexico

On April 15, 1975 Amoco Production Company re-initiated its 30-day pilot gas injection test after repairing a packer leak in Navajo Tribal "U" No. 3. The test originally started on April 4, 1975 but gas injection ceased on April 10, 1975 after a suspected packer leak was discovered. Approval to re-initiate the test for a 30-day period was granted verbally by Mr. Emery Arnold, Supervisor for the N.M.O.C.C., on April 10, 1975.

Yours very truly,

  
GOM/en
