El Paso, Texas

Att: Mr. H. H. Lines

Dear Sir:

Reference is made to your letter of December 12 regarding approval of C-110 on the J Felix Hickman #1 Malco well in Section 16-26N-8W. We have approved the form C-110 effective December 7, 1956, which is the date we received the Well Record form on this well. In this respect; however I would like to point out that the Well Log as filed lacked the following information: Size and depth of tubing and the shut-in casing pressure. In the future we would like to have the above information filled in on all Well Record Forms.

Yours very truly

Emery C. Arnold
Supervisor, District #3
