Dear Sir;

With reference to your letter dated February 6, 1978, pertaining to plugging your Malco State Commission # 1.

As you can see by your copy of the C-103, approval has been given to plug the well in the manner which is given. We hope to have our plugging rig available the first week in April. If we find the rig will not be available at this time, we will notify you by phone.

Thank you for your patience.

Sincerely yours,

Jack Huff
