Mr. Al Kendrick, Supervisor
Oil Conservation Com. Dist. #3
1000 Rio Brazos Rd.
Aztec, N. M. 87410

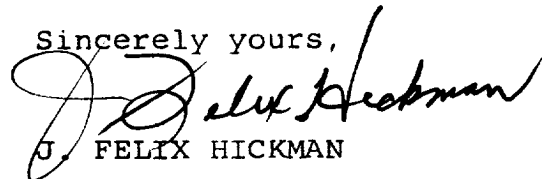

Dear Mr. Kendrick:

After talking to you on Monday, April 8th, I immediately called Mr. Baxter of the Bloomfield Oil Field Service and asked him to proceed to plug the Malco #1 Well as per Commission orders and past correspondence, as soon as he can make arrangements and in the meantime I will contact Palmer Oil Co. and ask them to clean up the location which they partly covered up, so that Bloomfield Oil Field Service can get their equipment in place to plug the well.

Mr. Baxter, agreed to call you and verify this, which I am sure he did.

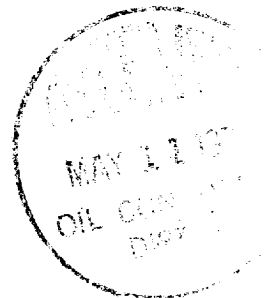

I wish to thank you for your patience and co-operation.

Sincerely yours,

J. FELIX HICKMAN

Production Superintendent
Palmer Oil & Gas Co.
Billings, Mt. 59103

Dear Sir:

When your company built the location to drill your State LG-3571, 16-1 G 16-26-8 in San Juan County, N. M., you very nearly covered my well, the the Malco No. 1, which is located on practically the same location as the above mentioned well.

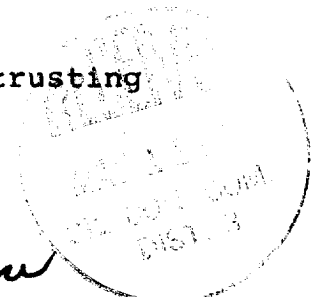

The Oil & Gas Commission has ordered me to plug my well, however the Bloomfield Oil Field Service state that that they are unable to get their equipment in place without the use of a Dozer to clear the dirt that was pushed next to the Malco Well when your location was built.

This will cost something around \$500.00 or less and I would appreciate your having this work done or authorizing Bloomfield Oil Field Service (Mr. Baxter) to perform the work at your expense

Thanking you for your cooperation and trusting this can be done as soon as possible, I am

Sincerely yours,

Felix Hickman
S. FELIX HICKMAN

P.S. Oil Conservation is aware of this and are anxious to get the well plugged.
