DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Operations were suspended on above 5-12-59. A study is presently being made in connection with water injection into this well as a part of the West Niot Unit. It is requested that this well be carried as is until such time as final decision is made as to water injection.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
