13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

A mechanical integrity test was to be conducted on this well before 12-31-92. Availability of equipment late in the year may not allow testing by this deadline. Test will be conducted prior to 1-15-93, with every effort made to complete the test in the original time frame.
