17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Dugan Production Corp. plans to do additional remedial work on this well. The location of this well in the proximity of the NIIP makes working on the well during the farming season difficult. When definite plans are formulated we will notify the BLM Farmington Office of these plans. As work load and weather dictates, we plan operations before farming season in 1986 begins.
