DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It was previously intended to drill and complete this well as the El Paso Natural Gas Company Nelson No. 1-A. However, the acreage on which this well will be drilled has since been assigned to El Paso Natural Gas Products Company, therefore this well will henceforth be known as the El Paso Natural Gas Products Company Nelson No. 1-A.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
