OIL CON. DIV.
DIST. 2

Dear Mr. Catanach:

Merrion Oil & Gas Corporation recently submitted an application to recomplete the subject well from the Gallup Formation into the Fruitland Coal Formation (Order NSL-3925). After further review, we now plan instead to recomplete the well in the WAW Fruitland Sands-Pictured Cliffs Pool.

The well's location of 1980' FNL and 1978' FWL is at a non-standard setback from the spacing unit boundary. Therefore, Merrion requests your approval of a non-standard location.

The justification for the request is based on the ability to recomplete the existing well instead of drilling a new well. The well is uneconomic in the Gallup Formation and, unless recompleted, needs to be plugged out. The proposed recompletion would put the wellbore to beneficial use and save significant money over drilling a new well.

Attached in support of this application are the following:

- 1.) C-102 Plat
