13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

J.K. Edwards Associates, Inc. (JKEAI) plans to recomplete this well as a Mesaverde injection well according to the same procedure as the enclosed wellbore schematic for the Frontier A#1. This will be performed after the Frontier A#1 has been converted to a saltwater disposal well. All of the necessary NMOCD and BLM approvals have been received for the Frontier well. We are currently waiting for EPA approval. That application has been submitted and is pending. The EPA approval became necessary due to Navajo Trust surface ownership.

JKEAI respectfully requests an additional 180 days to receive EPA approval and perform and evaluate the Frontier well prior to recompleting the Nelson well.

14. I hereby certify that the foregoing is true and correct
