Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR PLANNED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work).*

In response to your letter dated April 14, 1989 wherein you request our plans for the Western No. 5 well, we submit the following.

Merrion Oil and Gas is presently filing application with the State of New Mexico for permission to convert this well to salt water disposal in the Mesaverde Cliffhouse formation. This may require a hearing before the Oil Conservation Division and upon receipt of approval, we will submit to the BLM a request for permission to conduct the work. We plan to start the workover about mid July, 1989 and should submit a Sundry for your approval prior to that time.

If further information is required, please advise.

THIS APPROVAL EXPIRES SEP 01 1989
