Completion or Recompletion Report and Log form.)

13. Describe Proposed or completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Merrion Oil & Gas proposes to shut in the subject well temporarily. The well is an open hole completion. The open hole continually fills up with formation solids and we lose production until we clean out the fill. We propose to either drill a new well, or run a liner in the existing wellbore. We need time to evaluate the options and choose the best solution. We are unable to keep the well on production on a continuous basis. We therefore request approval to shut the well in while maintaining our allotted lease status until the evaluation and work are complete.

THIS APPROVAL EXPIRES AUG 01 2001
