MAY 27 1994

Mr. Stephen H. Kinney  
207 N. Orchard  
Farmington, NM 87401

Dear Stephen:

The following surface rehabilitation stipulations must be complied with as applicable, before the no. 1 Federal well located 790' FNL/ 990' FEL, S. 3, T. 26 N., R. 8 W., Lease no. NM-020494 can be approved for final abandonment (see 43 CFR 3162.3-4).

1. A permanent monument must be cemented in the wellbore. It must be labeled with the operators name, well name and number, legal location and lease number (see 43 CFR 3162.6).
2. All fences, production equipment, purchaser's equipment, concrete slabs, deadman (anchors), flowlines, risers, debris and trash must be removed from the location.
3. Production pits will be closed according to the Unlined Surface Impoundment Closure Guidelines, as approved in the Environmental Assessment of December 1993. Any oil stained soils may be remediated on-site according to these guidelines or disposed of in an approved disposal facility.
4. Pads must be leveled, dressed up by a maintainer, ripped and disked. The edge of the pads will be shaped to conform to the natural terrain.
5. Access roads must be leveled, waterbarred, disked and blocked off with earthen berms at the junction with the main road and at the entrance to the well pad. Waterbars should be spaced as shown below.

<u>% Slope</u>	<u>Spacing Interval</u>
Less than 2%	200'
2 to 5%	150'
6 to 9%	100'
10 to 15%	50'
Greater than 15%	30'

All waterbars should divert water to the downhill side of the road.

6. All disturbed areas will be seeded between July 1 and September 15 with the prescribed seed mix (reseeding may be required).

7. Notify Surface Managing Agency seven (7) days prior to seeding so they may be present for that operation.

599-8900 BILL LIESB JR 9/19/94

Other Surface Managing Agencies (SMA's) may vary slightly in their restoration requirements. It is your responsibility, as the operator, to obtain surface restoration requirements from other SMA's. We need to be provided with a copy of these requirements. Any problems concerning stipulations received from other SMA's should be brought to us.

On private land, we should be provided with a letter from the fee owner stating that the surface restoration is satisfactory.

If the rehabilitation stipulations have been completed, please sign below and return this letter to:

Farmington Environmental Compliance Staff  
1235 La Plata Highway  
Farmington, NM 87401

If the surface restoration has not yet been completed, notify us by Sundry Notice upon completion. We will schedule an inspection to check the well site after we receive notice from you that the vegetation has become established.

If you have any questions, please contact the Environmental Compliance Staff at (505) 599-8900.

Sincerely,

*Jerrold E. Crocker*  
for Ilyse Gold  
Chief, Branch of Lands, Cultural,  
Recreation and Environmental Compliance

The above mentioned well has been abandoned and the required surface restoration stipulations completed.
