COCAINE / NEW CORRELATION

[illegible]

Well was spudded at 6:00 P.M., October 12, 1952, and drilled to a depth of 1762 feet with rotary rig. 5-1/2" casing landed at 1762 feet with 45 sacks of cement. Then the well was drilled to a total depth of 1792 feet with rotary rig by using gas for drilling from 1762 to 1792 feet.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of refilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
