Magnolia Petroleum Co.
Kernit, Texas

Att: Mr. E. G. Blundell, District Superintendent

Dear Mr. Blundell:

It has come to our attention that we have not been receiving copies of electric logs for some wells drilled by Magnolia Petroleum Co. in District #3. Our rules now require that electric log surveys be filed with the District Office in which each well is drilled, or in the event that the operator does not wish to submit electric log surveys, he must write a letter stating that the information is confidential.

At the present time we particularly need electric logs taken on your #1 Crandell-Federal well in Section 3-26N-9W. I would appreciate it very much if you send me copies of this log as soon as possible as I need it for a matter coming up for hearing before the Oil Conservation Commission in Santa Fe.

Yours very truly

Emery C. Arnold
Supervisor, District #3
