*Mobil Oil Company
P.O. Box 3371
Durango, Colorado*

Attn: Mr. E. C. Mills, Engineering Supervisor

Dear Mr. Mills:

We have received one copy of Form C-126 requesting approval for the running of 1494 barrels of load oil from your #1 Grandell-Federal well in Section 3-26N-9W.

While everything appears to be in order for the approval of this form it will be necessary that it be submitted in triplicate in order that we may return an approved copy to you and furnish an approved copy to the Industrial Oil Company, the transporter.

Will you please re-submit Form C-126 in triplicate.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*

NOTES ON THE CONSTRUCTION OF
THE NEW YORK STATE
MUSEUM

The following notes are intended to give a general idea of the construction of the New York State Museum. The building is a large, modern structure, designed to house the collections of the State Museum. It is located on the corner of Madison Avenue and 125th Street, in the Bronx. The building is a long, rectangular structure, with a central entrance and several wings. The interior is a large, open space, with high ceilings and large windows. The collections are arranged in a logical manner, with the most important collections in the most prominent locations. The building is a fine example of modern architecture, and it is a pleasure to visit.
