DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

Well was temporarily abandoned December 21, 1962 due to production declining to noncommercial rates. As there are no prospects for returning well to commercial production or any other use for well, we propose to permanently abandon the well by the following procedure:

1. Spot 30 sacks regular neat cement plug on bottom 9037' (PBD) to 4777' and squeeze perforations.
2. Fill hole with fluid.
3. Pump 30 sacks regular neat cement down 5-1/2" - 6-5/8" annulus (about 200' fillup).
4. Remove wellhead and surface equipment.
5. Spot 5 sacks regular neat cement for surface plug (0-43') and erect abandonment marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

DIST 3

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting cycle, from identifying the transaction to posting it to the appropriate ledger account. It also discusses the importance of double-checking entries to ensure accuracy.

3. The third part of the document addresses the issue of reconciling accounts. It explains how to compare the company's records with the bank's records to identify any discrepancies. It provides a step-by-step guide for performing a bank reconciliation and discusses the common reasons for differences between the two sets of records.

4. The fourth part of the document discusses the importance of internal controls. It describes various control measures that can be implemented to reduce the risk of errors and fraud, such as segregation of duties, authorization requirements, and regular audits. It also discusses the role of management in establishing and maintaining a strong internal control system.

5. The fifth part of the document discusses the importance of transparency and communication. It emphasizes the need for clear and concise reporting of financial information to management and to external stakeholders. It also discusses the importance of maintaining open lines of communication with the public and the media to ensure that the company's financial performance is accurately represented.
