Attn: Mr. E. S. Oberly

Dear Mr. Oberly:

Reference is made to our Form Letter of October 8, 1965 changing lease and number designations on various of your wells in the San Juan Basin. On Page 13 of this letter there is listed a well located in Unit N, 16-27N-8W which is shown as being changed to the Schultz State #12. On all other wells on the Schultz lease the "State" designation is dropped. Therefore this well should properly be designated as the Schultz #12 in order to conform with the other wells on the Schultz lease.

Will you please change your records accordingly and I will give this letter proper distribution in order that all other sources will be advised.

Yours very truly

Emery G. Arnold
