13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In reply to your request regarding the status of the proposed remedial work on the subject well. We have decided at this time to cancel our proposal to plug back. The quality of the Fruitland Coal in the area has proven to be poor, and therefore cannot economically warrant the proposal.

The well is currently suspended and requires further review prior to any remedial action. We expect to submit a notice of our intentions by the first quarter of 1992.
