RE: Our #1 Graham Well
Unit A, Section 4-27N-8W.

Gentlemen:

Thank you for your letter of February 13, advising us of the failure to have filed a deliverability test for our Graham No. 1.

Also, we regret not having replied to your letter of November 15, but the writer was out of town at the time, and it is possible that it was inadvertently routed to the wrong source. We unfortunately cannot find a copy of the Commission's letter in our files. Additionally, we would like to point out that Mr. Atkins, our Secretary/Treasurer, passed away.

You may rest assured that being a small company we are particularly anxious not to lose any part of our allowable, and under the circumstances would like to do everything possible to have the well put back on production. As suggested, we are communicating under separate cover with El Paso, requesting them to schedule the well for a deliverability test at the earliest possible date, and to send us the result of the same.

Anything you can do to help us in this matter will be greatly appreciated.

Yours sincerely,

Charles S. Hale

RE: Our Graham #1

Gentlemen:

I would like to refer you to the enclosed photocopy of letter from the Oil Conservation Commission of the State of New Mexico, under date of February 13, 1963. Also I am endosing a copy of my reply.

Anything you could do to expedite the deliverability test, and the submitting of the same to the Commission would, needless to say, be greatly appreciated.

Thanking you, we remain

Yours sincerely,

Charles S. Hale
President
