Approved by _____, 19 52

Well No. 10-100-1 is located 100 ft. from (N) line and 100 ft. from (E) line of sec. _____

10-100-1 (1/4 Sec. and Sec. No.) 100 (Twp.) 10 (Range) N. 100. 100 (Meridian)
Albuquerque, N.M. (Field) Albuquerque (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 5000 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It was originally intended to complete this well in the Mesa Verde formation. Subsequent events have brought about a change in plans. It is now intended to finally complete this well by perforating and fracturing all possible productive zones in the Mesa Verde and Pictured Cliffs formations. Casing program remains the same as originally intended.

The 1/2 of Section 1 is dedicated to the Mesa Verde formation.

The 3/4 of Section 1 is dedicated to the Pictured Cliffs formation.

1/2 & 3/4: 10-100-1

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company El Paso Natural Gas Company

Address Box 101
Farmington, New Mexico

By Olga A. Johnson

Title Retroleum Engineer

Well Location and Average Dedication Plat
