Dear Mr. Arnold:

J. Glenn Turner hereby requests an exception to Rule 112-A I, for administrative approval of the Dual Completion of the Ballard No. 11-15 well, located in Unit "D", Section 15, Township 26 North, Range 9 West, San Juan County, New Mexico. This well has been completed dually in the Angels Peak Gallup (Extension) Pool and the Basin Dakota Pool.

Enclosed is one copy of "Application for Dual Completion", Diagramatic Sketch of Dual Completion and Plat showing the location on all wells of Applicant's leases and all offset wells on offset leases, together with the names and addresses of offset operators. The offset operators have been notified of the application and have been requested to submit "Waivers" to the Dual Completion of this well. The Packer Leakage test is presently being conducted and will be submitted at such time as it has been completed.

Yours very truly

Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
