JAN 18 1984

BUREAU OF LAND MANAGEMENT
FARMINGTON RESOURCE AREA

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The 90 day production test on this well ends on January 31, 1984, with the well only making 64% of it's pre-casing leak average.

It is proposed that a six month extension be allowed, because of the difficulty this well has in removing the foreign fluid from the producing formation.

This Approval or Temporary
Abandonment Expires August 14, 1984
