San Juan County, New Mexico**

Dear Ms. Drywater:

In accordance with consultation with Mr. Frank Chavez, District Supervisor of the New Mexico Oil Conservation Commission, we have revised our September 30, 1993 proposal for allocation of production from the Gracia Navajo 5-K #2 well and the Gallegos Com #5 wells. The revised allocation method is based on volumes produced (Mcf's), rather than on the heat content of the individual gas streams (MMBtu's).

A copy of our revised application, with allocation calculations and a sample calculation is enclosed for your review. Pursuant to New Mexico Oil Conservation Division Rule 309-B.4., any objections to our proposal should be made within twenty (20) days.

If you have any questions concerning this matter please do not hesitate to contact us.

Very truly yours,
