To: Operators of All Oil Wells Completed Subsequent to January 1, 1971

New Mexico Oil Conservation Commission Order R-4070 provides that no casinghead gas produced from any well in this state completed after January 1, 1971, shall be flared or vented after sixty days following completion unless a no-flare permit has been approved for the well.

Our records indicate that the following well:

Amoco Production Company, Navajo Tribal U No. 16
Operator Lease

located C-16-26N-18W, Tooto Dome Penn D Pool,
Unit, Sec., Twp. & Rge.

was assigned an allowable effective 12-24-73 . It will therefore
Date

be necessary that an NFO permit be approved prior to 2-21-74
Date

if casinghead gas is to be vented subsequent to that date.

Please complete the form marked "Application for Exception to No Flare Order No. 4070," and submit in triplicate to this office if this is appropriate.
