17. DESCRIBE THE WELL OR COMPLETE OPERATIONS. Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.

Request approval for long term shut in. Bayless plans to rotate production of this and other wells on the lease to maximize ultimate oil recovery. Please refer to our letter to Ken Townsend dated July 28, 1993. All wellhead valves will be sealed. The location will be cleaned up. The rods and/or tubing will be left as is.
