Completion or Recompletion Report and Log form)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Texaco respectfully requests to change the well designation of Texaco's Navajo Tribe AR #8 from a Salt Water Disposal well to an Enhanced Recovery well (Injection Well). This well is injecting into the Barker Creek formation and supplies pressure support for producing wells, Navajo Tribe AR #4 & # 6 which are also producing from the Barker Creek formation (see attached cross-sections). Navajo AR#8 is located from 1/4-1 mile from these offset producers (see attached plat).
