In response to NMNM-17018(GC) 3107.2-2 (07337), in which you requested an explanation in permitting a Fruitland Coal well on this lease; the permit was delayed at the advise of the BLM in which we understood the permitting process was being stream-lined on leases with Navajo surface. The permit has cleared the review at NAPI and is scheduled for review in the near future by the Tribe. It is still our intent to drill this well as soon as a permit is received. We request an extension to January 1, 1997 to make this lease productive.
