13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to your letter dated January 15, 1997, it is intended to plug and abandon this wellbore by filling the casing full of cement upon receipt of an approved drilling permit for our ABO #90 well and drilling operations have commenced. If the drilling permit is denied, it is understood that we will be allowed to file a Notice of Intent to Workover this wellbore and be allowed sufficient time to complete the work and adequately test the Fruitland Coal formation on this lease.
