17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

It is requested that temporary abandonment of the well be approved for one (1) year.  
Also that the well be approved to leave in current condition for the one (1) year.  
The reasons for the request are:

1. The Fruitland Sand has such a low productivity that the well will not produce in paying quantities.
2. Other wells in area are being recompleted in the Fruitland Coal.
3. Additional time is required to evaluate the well for possible potential production in the Fruitland Coal.
