13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Edwards Energy Corporation has recently attempted to return this well to production. It will not produce against the current high line pressure but will produce against a lower line pressure. Since we are in the process of selling this well, we request a six-month period to allow the new operator to evaluate whether the well should be put on compression or P&A'd.
