Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In response to BLM letter dated October 1, 1986 concerning the recent inspection of Dugan Production's No. 1 Irish well, Dugan Production has drilled and completed the No. 1-J Irish, located 790' FSL & 790' FEL, Sec. 12, T26N, R13W, as a replacement well for the No. 1 Irish, which was no longer capable of production, and subsequently plugged. El Paso Natural Gas Company disconnected the No. 1 Irish. Dugan Production Corp. then laid a gas line from the No. 1-J to the No. 1 Irish production facilities and meter run. Natural gas is now being produced from the No. 1-J Irish and metered at the No. 1 Irish metering station. The associated production equipment on the No. 1 Irish location is being utilized.

The permanent monument on the No. 1 Irish well has been labeled with the lease number. Dugan Production Corp. is within lease boundaries for these two wells and we believe that we are in compliance. A field inspection by BLM staff members and Dugan representatives will be arranged if any further questions should arise.
