District Office

APPLICATION FOR  
QUALIFICATION OF WELL WORKOVER PROJECT  
AND CERTIFICATION OF APPROVAL

THREE COPIES OF THIS APPLICATION AND ALL ATTACHMENTS MUST BE FILED WITH THE APPROPRIATE DISTRICT OFFICE OF THE OIL CONSERVATION DIVISION.

- I. Operator: THOMPSON ENGR. & PROD. CORP. OGRID #: 037581  
Address: 7415 E. Main Farmington, N.M. 87402  
Contact Party: Paul C. Thompson Phone: 505 327-4892
- II. Name of Well: State #1 API #: 30-045-22575  
Location of Well: Unit Letter A, 790 Feet from the North line and 790 feet from the East line,  
Section 2, Township 26N, Range 13W, NMPM, San Juan County
- III. Date Workover Procedures Commenced: 9/4/96  
Date Workover Procedures were Completed: 9/20/96
- IV. Attach a description of the Workover Procedures undertaken to increase the production from the Well.
- V. Attach an estimate of the production rate of the Well (a production decline curve or other acceptable method, and table showing monthly oil and/or gas Project Production) based on at least twelve (12) months of established production which shows the future rate of production based on well performance prior to performing Workover.
- VI. Pool(s) on which Production Projection is based:  
WAW Fruitland Sand - Pictured Cliffs
- VII. AFFIDAVIT:  
State of New Mexico )  
County of San Juan ) ss.  
Paul C. Thompson, being first duly sworn, upon oath states:

DIST. 3

OIL CON. DIV.  
DIST. 3

1. I am the Operator or authorized representative of the Operator of the above referenced Well.
2. I have made, or caused to be made, a diligent search of the production records which are reasonably available and contain information relevant to the production history of this Well.
3. To the best of my knowledge, the data used to prepare the Production Projection for this Well is complete and accurate and this projection was prepared using sound petroleum engineering principles.

(Title)

SUBSCRIBED AND SWORN TO before me this 10 day of February, 1997

Guth E. Ragge  
Notary Public

My Commission expires: July 31, 1997

FOR OIL CONSERVATION DIVISION USE ONLY:

VIII. CERTIFICATION OF APPROVAL:

This Application for Qualification of Well Workover Project is hereby approved and the above referenced Well is designated as a Well Workover Project pursuant to the "Natural Gas and Crude Oil Production Incentive Act" (Laws 1995, Chapter 15, Sections 1 through 8). The Oil Conservation Division hereby verifies the Production Projection for the Well Workover Project attached to this application. By copy of this Application and Certification of Approval, the Division notifies the Secretary of the Taxation and Revenue Department of this Approval and certifies that this Well Workover Project has been completed as of 7/20, 1997.

#### IV. Workover Operations:

Well is a 2 7/8" slimhole completion that was never fractured. The well also did not have any tubing.

A casing leak was discovered in the 2 7/8" casing at 322-328'. The holes were squeezed with 152 sx of Cl "B" cement with 2%  $\text{CaCl}_2$  and 1/4 cello-flake/sk. After drilling cement, the holes were pressure tested to 1700#.

Covered the lower set (1226 - 1231') of existing perfs with sand. Reperforated the upper set (1212 - 1218') of perfs at 2 SPF. Fraced the Pictured Cliffs with 45,000# of 20/40 sand in a 70% nitrogen foam.

After clean out, 1 1/2" I J tubing was run. A 1 1/2" tubing pump was run on 5/8" rods and the well was returned to production.
