ADMINISTRATIVE ORDER DHC-2864

SA
Conoco Inc.
P.O. Box 2197
Houston, Texas 77252-2197

Attention: Ms. Deborah Marberry

*State Com No. 47
API No. 30-045-22961
Unit L, Section 2, Township 27 North, Range 8 West, NMPM,
San Juan County, New Mexico.
Otero-Chacra (Gas - 82329),
South Blanco-Pictured Cliffs (Prorated Gas - 72439) and
Blanco-Mesaverde (Prorated Gas - 72319) Pools*

Dear Ms. Marberry:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's San Juan Basin Gas Proration Schedule.

Production from the well shall be allocated as follows:

Oil and gas production from the Blanco-Mesaverde and South Blanco-Pictured Cliffs Gas Pools shall be determined by utilizing the production forecast submitted as an attachment to the downhole commingling application. Oil and gas production from the Otero-Chacra Gas Pool shall be determined by subtracting Blanco-Mesaverde and South Blanco-Pictured Cliffs Gas Pool production from the well's total monthly oil and gas production.

Pursuant to Rule 303.C.(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 25th day of January, 2001.
