ENERGY AND MINERALS DEPARTMENT

All distances must be from the outer boundaries of the Section

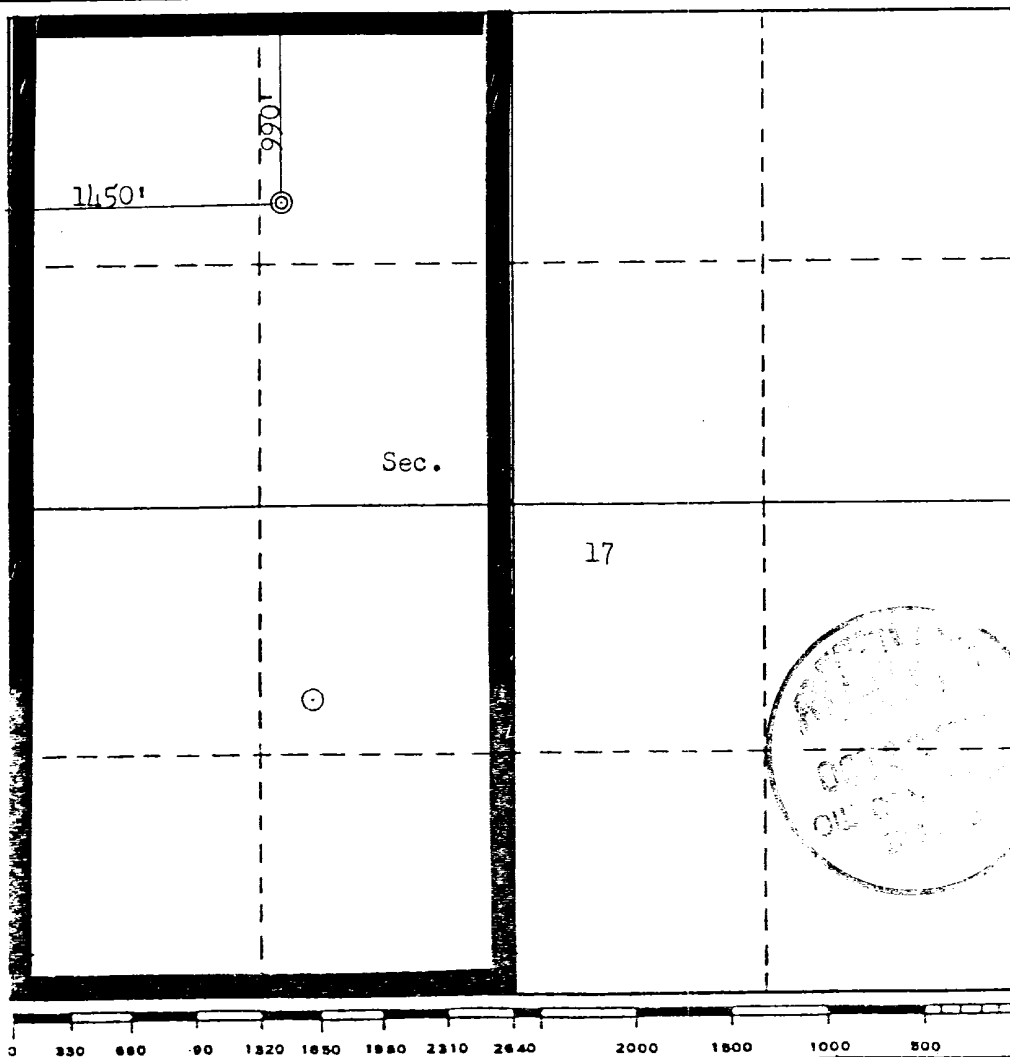

Operator • TENNECO OIL COMPANY			Lease DELM I TAYLOR		Well No. 6-E
Unit Letter C	Section 17	Township 26N	Range 11W	County San Juan	
Actual Footage Location of Well:					
990 feet from the North line and		1450 feet from the West line			
Ground Level Elev. 6146	Producing Formation Dakota	Pool Basin Dakota	Dedicated Acreage: 320 Acres		

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

NAVAJO INDIAN IRRIGATION PROJECT  
3539 East 30th Street  
Northwest Energy Bldg., Room 103  
Farmington, New Mexico 87401

October 12, 1979

To: Mr. Lee Freeman, Staff Analyst  
Tenneco Oil Company  
720 South Colorado Blvd.  
Denver, Colorado 80222

Dear Mr. Freeman:

You have contacted our office regarding the location of two proposed gas wells within the Navajo Indian Irrigation Project.

To prevent interference with the designed irrigation systems of the Project we request that the wells be located as follows:

- ✓ Delhi Taylor #6E, 990' FNL, 1450' FWL, Sec. 17,  
T. 26 N., R. 11 W..
- Delhi Taylor #5E, 2350' FSL, 990' FEL, Sec. 17,  
T. 26 N., R. 11 W..

To locate the wells other than these locations would create problems in both access to your wells and operation of the sprinkler irrigation systems. All production equipment should be installed north of the actual well sites.

Your cooperation is appreciated.

Sincerely,

Albert L. Keller  
Project Manager
