Re: Delhi Taylor 6E
Sec. 17, T26N, R11W
San Juan Co., New Mexico

Dear Sir:

The above referred to location is a well bore which we have purchased for the purpose of recompletion in the Gallegos Gallup formation. We request approval of this unorthodox location in order to use the existing well bore. The well was originally staked as unorthodox to comply with the Navajo Irrigation Project.

Letters have been sent certified mail to the offset operators requesting their approval.

Thank you for your assistance in this matter.

Yours truly,

MERRION OIL & GAS CORPORATION
