DEVELOPMENT PLAN FOR SURFACE USE

Dome Navajo 24-26-13 #1

810' FNL and 905' FWL Sec. 24, T26N, R13W San Juan County, New Mex.

#### 1. EXISTING ROADS

The main road to the location is that from Farmington toward Bisti, (Bisti highway) leaving this road approximately 23 miles south of Farmington and using existing side roads to the location.

#### 2. PLANNED ACCESS ROADS

The access road, to be routed as shown on the attached map, will be 18' wide with adequate ditch and water bars.

#### 3. EXISTING WELLS

Existing wells within one mile of location are shown on the attached topographic map.

#### 4. LOCATION OF PROPOSED FACILITIES

Development of commercial gas production will require separation facilities on the location pad. Equipment and pits will be fenced as required for protection of livestock and wildlife. Above ground facilities will be painted brown or grey to blend in with the surrounding area as specified by the BLM. The disturbed areas no longer needed for operations after well completion will be restored to natural contour and reseeded.

#### 5. LOCATION AND TYPE OF WATER SUPPLY

To be hauled from El Paso Natural Gas Co. water pit at Chaco Gas Plant, approximately 3 miles east.

#### 6. SOURCE OF CONSTRUCTION MATERIALS

Not applicable.

#### 7. METHOD OF HANDLING WASTE MATERIALS

All garbage and trash that can be burned shall be burned. All trash that cannot be burned will be contained in a trash pit and covered with a minimum of 24 inches of dirt. All drilling waste such as cuttings, overflows of oil, water and drilling fluids will be contained in the reserve pit and buried with adequate cover upon completion of operations. The reserve pit will be fenced until cleanup operations are commenced. Toilet facilities will be provided.

#### 8. ANCILLARY FACILITIES

No camps or airstrips are proposed for this location.

#### 9. WELL SITE LAYOUT

See attached diagram.

#### 10. PLANS FOR RESTORATION OF SURFACE

Cleanup of the location will commence immediately following the removal of the drilling equipment. The reserve pit will be fenced until restoration operations are commenced. The location will be returned to original contour if the well is not productive. Both the road and location will be reseeded in accordance with BLM specifications.

#### 11. OTHER INFORMATION

Topography consists of rolling hills with very sandy soil. Vegetation is composed of Snake Weed, Mormon Tea, Yucca, Prickly Pear and Blue Gramma.

#### 13. CERTIFICATION

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions which presently exist; that the statements made in the plan are, to the best of my knowledge, true and correct; and that the work associated with the operations proposed herein will be performed by Dome Petroleum Corporation and it's contractors and sub-contractors in conformity with this plan and the terms and conditions under which it is approved.
