17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

At the request of the U.S.G.S. and B.L.M. during the pre-drill inspection on November 13, 1979, the above-referenced well location and access road thereto, have been moved. The main reason for the change was to alleviate terrain problems connected with building and drilling this location.

Attached are the new location and elevation plat (EXHIBIT "A") and the proposed new access road map (EXHIBIT "E").

18. I hereby certify that the foregoing is true and correct
