13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The right-of-way application for this well had to be re-submitted to the Resolution Committee of NAPI, due to a footage change and, therefore, we had to start the approval process from the beginning again.

Due to this delay, Edwards Energy Corporation will schedule a casing integrity test for this well within the next two weeks.

14. I hereby certify that the foregoing is true and correct
