Reference is made to your October 31, 2000 letter concerning the No. 2 Ross Federal well. This letter and previous letters refer to returning the well to production. This well has never been put into production because of the extreme difficulty in right-of-way. Previous correspondence to your office has provided you with information concerning our efforts to secure rights-of-way and also an irrigation canal crossing. We will continue our efforts to take the necessary steps to place this well into production. We respectfully request an additional six months to accomplish this.
