Dear Mr. Click:

The 2001 Packer Leakage Test on the referenced well indicates communication between the producible zones.

Review Rule 112-A.2.b

...."Test results shall be filed with the Division within 20 days of test completion. In the event a segregation and/or packer leakage test indicates communication between separate pools, the operator shall immediately notify the Division and commence corrective action on the well."

In order to comply with Rule #112A, you are hereby directed to initiate remedial activity and retest the well to show separation of the zones prior to March 10, 2002. Notify the Aztec OCD in time to witness the retest.

Place Compliance number: **CTP0134431260** on all communication regarding this Directive.

If you have any questions, please call me at 505-334-6178, ext. 16.

Sincerely,

Charlie T Perrin
