13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true depths for all markers and zones pertinent to this work.)*

Please refer to your letter dated September 12, 1995.

We request permission for continued long term shut in status. We are not aware of any pipelines in the immediate vicinity of this well and we do not anticipate that this situation will change in the near future. It is anticipated that this well will remain shut in indefinitely. The well is still capable of production in paying quantities and is protected by cement which was circulated to surface on the longstring. Therefore, we request that any casing integrity tests be waived. Improving gas market conditions would cause a reevaluation of this wells' status.
