13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Please refer to your letter dated August 7, 1998, wherein you requested our plans for the well.

We request permission for continued long term shut in of this well. This well remains remote relative to pipelines. Should pipeline proximity change and/or gas prices significantly improve we will consider connecting and producing this well.

The longstring of this well was cemented to surface. Therefore, we request that the casing integrity test requirement be waived. All up hole zones should be isolated and the casing should be protected.
