RE: Blackhills #1, Previous Robert Bayless
M-25-26N-13W

An Original C-104 that is all filled out, has never been filed on this well. I am returning your C-104 to fill out the well completion data and the well test data and return. I will attach a completion report and you can get information from that.

Also Texakoma has another well name Blackhills #1, we cannot have an operator with 2 wells with the same name. You need to change names on one of the well.

Thanks,

*They are calling it
Bayless Blackhills #1*

RE: Request for Allowable (C-104)
Blackhills #1
San Juan Co., New Mexico

Dear Dorothy:

Attached is the Request for Allowable (C-104) for the Blackhills #1 well in San Juan County. This form is being sent to change the operator from Robert L. Bayless to Texakoma Oil & Gas. This well has been completed in the Bisti Farmington Ext. Pool but has never produced to our knowledge. Please do not confuse this well with Texakoma's Black Hills #1, which produces from the Fruitland Coal formation.

We are currently making plans to connect this well into El Paso's pipeline. Your earliest consideration on the Request for Allowable will be appreciated. If you should have any questions concerning the enclosed, please call Rodney Kiel at 972/701-9106.

Sincerely,

Rodney A. Kiel
